The New Challenge

Litigation is increasingly more complex. Cases take longer, involve more people, require more information, and demand faster access to information. Controlling costs while staying responsive to clients, the court, and opposing counsel is a constant challenge.

The Right Solutions

The professionals at New Jersey Legal offer a single source for legal solutions that keeps cases on track and expenses down. From litigation support to information management tools to electronic and print document management services, our comprehensive and integrated suite of services and advanced technology adapts to your needs throughout the litigation process.

- User security profiles for control, right down to field levels
- Support for native files, OCR and scanned images
- “Point and click” document resizing
- Unlimited user-defined index fields
- Support for both user and global custom index fields
- Group/batch tagging capability
- Simultaneous index field and full-text searching
- User-defined search criteria
- Save function for both user and global search definitions
- Support for annotations and redactions
- User-defined field selection and ordering
- Email integration
- Support for single document and batch printing
- Online, real-time, customizable, and printable document audit reports
- Support to export custom reports to .xls
- User-defined custom reports
- Support to download documents to your local machine
- Support for document review workflow management best practices
- Live chat support
- Customizable FAQs by case to enable custom review instructions

No Capital Investment Required

Since ImageDepot is delivered as Software as a Service (SaaS) via the internet, there are no long-term software license and maintenance fees and no hardware to purchase or manage. You simply pay a per-document or per-GB fee for the time you want to store and review your documents.

ImageDepot Technology Platform

- Microsoft Technology Stack
- Software as a Service (SaaS) delivery model
- Unlimited scalability
- State-of-the-art hosting facility
